Environmental Policy Declaration

ENVIRONMENTAL POLICY FOR: KIWIFRUIT PROCESSING COMPANY LTD

We recognise that our company has an important role to play in protecting and enhancing the environment for future generations, and to help secure the long-term sustainability of our business.

To this end, we are committed to work toward the following by setting specific performance targets. In addition to comply fully with relevant environmental legislation, we aim:

- To minimise our use of energy, water, materials and other resources
- To minimise our waste and reduce, reuse and recycle wherever practical
- To implement and design initiatives to minimise waste generation
- To work in partnership with suppliers and contractors to improve our environmental performance
- To openly communicate our policies and practices to interested parties and to work toward zero waste
- To monitor and review our performance against targets on an annual basis to enable continuous improvements
